Window Sweeper Kits

(10.710)

All of the below listed Sweeper kits contain 8 horizontal weatherstrips that seal the bottom of the side door glass and rear quarter glass. Both inside and outside seals are included in the kits. All pieces come with the correct chrome beads (where necessary) and pre-bent metal backing. All kits come with clips and hardware for easy installation.

Our kits are **"original type"** as they look and function as originals. We understand that there are aftermarket kits available through other vendors that have **"flat"** beads instead of the original **"round"** beads. We have found these kits to be inferior both in function and appearance, therefore, we refuse to sell them. Instead you will find that we sell the best "original" style kits at a fraction of the cost of those found elsewhere. Don't be fooled or settle for less.
