LOWER CONTROL ARMS

Heavy Duty Boxed Lower Control Arms. Virtually eliminates wheel Hop and improves traction. Also improves roll stiffness and stability. Features polyurethane bushings for improved performance.

- 1978-1988 Regal, Turbo-T, GN, GNX
- LCA788**\$119.50 Pair

AXLE LUBRICANT

Limited Slip Lubricant Additive is a specially compounded formulation which when used in limited slip (posi-traction) equipped rear axles reduces excess clutch plate friction to facilitate applying and releasing of clutch plates reducing chatter and noise in the rear axle

- If you have a posi rear, this stuff should be in it!!**
- AL300**\$11.75 Each
